POLITICS
IS BOILIN'

Other things are warming up as well as politics in the old town. For instance, the little blue flame stove on the lunch counter at the ANNEX is burning all the time, and in the pan which surmounts you'll find some of the dandiest fruit fritters you ever tasted. Drop in, have a drink and enjoy the fritters.

League Holds Up Games
Until Trustees
Decide.

The latest development in the baseball situation is the calling off of today's games by the league. The Oahus were to have met the Honolulu and the Kamehameha's Punahou. It is probable that no games will be played pending the announcement of the findings of the trustees who are at present investigating the game played a week ago between the Honolulu and the Kamehamehas.

The league met at noon yesterday in the office of Frank Richardson, present being Frank Richardson, Frank Falk, Jess Woods, George Desha, U. Lemon, Harry Bruns, Pat Gleason and F. E. Steere.

Richardson acted as chairman of the meeting and Steere as secretary. On the motion of Steere, seconded by Falk, it was decided that no games be played today and that the entire schedule be moved back a week. It was also agreed that similar action should be taken provided the trustees have not arrived at a decision before Saturday next.

There is a growing opinion in the community that the investigation by the trustees will have a very salutary effect on baseball in Honolulu. It will clear the atmosphere of clouds of suspicion which have existed since the beginning of the second series and will put a wholesome fear of exposure into the heart of any player who in the future may be tempted to play other than his best.

FALK TALKS OF SITUATION

In an interview with Charles Falk, the manager of the Honolulu team, agent the baseball situation, Mr. Falk expressed himself as follows:

"There is misconception on the part of many as to the position taken relative to playing, by the Honolulu. At no time has any disposition been shown to either coerce or hurry the trustees. The only viewpoint taken by the members of the team has been the propriety of appearing on the ball grounds while under charge of throwing a game. The idea is, and always has been, to play ball just so soon as the atmosphere is cleared.

"I am glad to say that the league unanimously supported this position. While I regret the notoriety attaching to this matter, I am satisfied that the game will not suffer thereby. The loose talk heretofore indulged in regarding the selling of games will be indulged in less. The players will realize the gravity of even a passive acquiescence in such talk and will be more earnest and careful in their demeanor on the field. When the skies are again clear we may look for a continuance of the struggle for the coveted pennant and I sincerely hope that the great game will not lose the favor of the sport-loving people here.

"The team which I represent will endeavor to be in the vanguard, and if it is not, it will not be through the lack of effort. I hope to see the old-time rivals, the Oahus and Honolulu, horns locked, as of yore, ready when Bower calls time next Saturday, the 28th, for fair and earnest combat."

TOLD TO BET BY KAHUNAS

The kahuna has stepped into the baseball situation and is being blamed for the wholesale wagering of money on sporting events which has of late been going on in Honolulu.

It is the natives and half-whites who traffic with the kahunas and it is the practice of many of them to visit one of the Hawaiian soothsayers prior to the decision of a contest and ask the opinion of the oracle as to who will win.

A notable case of this kind of thing occurred in connection with the championship rowing races at Pearl Harbor on July 4. Two members of the Honolulu Athletic baseball team visited a kahuna and were informed that the Heolani would win the senior race. The gullible pair, acting on the native's advice, backed the Blues for all they could afford and probably more. The Myrtles were victorious and the ball-players' money went the way of all bad bets.

It is a well-known fact that ball-players have been in the habit of consulting kahunas as to which nine would emerge winner from a game and that they have acted on the say-so of the fortune-teller in the matter of placing bets.

It doesn't take more than an ordinary amount of perception to arrive at the conclusion, that if John Smith of the Hilo nine is told by a kahuna that the Walluku team will beat his side when they meet on the diamond, and accordingly backs the Wallukus, said John Smith is likely to be affected with sudden indisposition, if the fortunes of the game chance to go against the nine he has bet on, which will prevent Mr. Smith from playing within blocks of his best form.

BASEBALL
AT PUNAHOU

Prospect of Present
Season of Oahu
College.

The baseball season for 1906 was not as successful as it was hoped it would be, but, notwithstanding, it was a creditable one for Punahou. The difficulty this year was that there was no interscholastic schedule. The High School had no team, and we had to form a dual league with Kamehameha. A schedule of five games was arranged, the winner of three claiming the interscholastic championship. Unfortunately, owing to different reasons, Kamehameha could not play the first and second scheduled games. Finally, after a little persuasion on our part, they agreed to play a game. Punahou demonstrated by winning this game that all of the long practice had reaped its reward. The trouncing given Kamehameha somewhat took the ardor out of their players, and they decided not to play another game. This left Punahou without an opponent and the interscholastic championship.

Four games were played with the Infantry, resulting in our winning one and losing three. The Infantry had the best advantages; the team had experienced men and had played together much longer. Notwithstanding this, our team made a most creditable showing against them. A game played with the Males resulted in a tie, the game being called off on account of darkness. Two games with the P. A. C. resulted in one won and one lost. Another game with the C. A. C. was won by Punahou. The last game with the Faculty, seven innings being played, the score stood 7 to 5 in the team's favor. Altogether, therefore, ten games were played; the team won five, lost four, and one was drawn. This is quite a creditable showing, considering the teams played against.

Of last year's squad there remained "Dick" Ahrens, A. McDougall and "Jack" Desha. From Kamehameha came "Dave" Desha and "Bishop" Lyman. Frank Hoogs, from the High School, was a valuable addition to the team. The rest of the players, A. Lowrey, Lo On, W. Aehl, J. Winnie, "Clem" Akina, and Arthur Stillman, were second team men. Mr. Flitts, the coach, was a most valuable person, both in his untiring perseverance and his wholesome advice. He was always on the ground ahead of time, seeing that each man received proper training, remedying his faults, and strengthening him all around. He was tireless in his efforts to better the team in every way, and he can be justly proud of the result of his labors. His work for the team's good will always be remembered. The team is fully appreciative of his services.

The batting of the team, on the whole, was very good, due probably in no small measure to the stimulus afforded by the offering of the President's cup. This cup was offered to the player having the highest batting average at the end of the season. It was won by Lo On, his batting average being 352 16-47 per cent. Alan Lowrey and "Jack" Desha tied for second place with a batting record of 312 1-2 per cent. The rest of the team, excepting one or two, batted over two hundred per cent. The fielding of the team was good. Excepting for a "break" or an "up in the air," for an inning or two, the support given to the pitcher was good.—The Oahuian.

WANTED AT ONCE.

A little forethought will often save no end of trouble. Think of the pain and suffering that may be endured in case of an attack of pain in the stomach or cramp colic when medicine must be sent for. Every family should have a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house. It is sure to be needed sooner or later and when that time comes, it will be wanted at once. Buy it now. It may save life. Sold by Benson, Smith & Co., Ltd., Agents for Hawaii.

THEY WANT NEW SCHOOL

Kalihi People Will Petition Superintendent Babbitt.

The Kalihiwaena schoolhouse is to be taken into politics. That is to say, the voters down Kalihi way want the new schoolhouse built as it has been planned, and so the leaders of all parties in that section will unite in petitioning the Superintendent of Public Instruction to go ahead and build the schoolhouse anyway, they in turn pledging their nominees for the Legislature that whatever deficit there is will be made good.

The Kalihiwaena school, as planned, is a handsome stone structure of nine rooms. When it was planned, the design was well within the appropriation made for it in the last Legislature—and there would have been something over for furnishing. With the San Francisco disaster, however, the prices of lumber and of all kinds of building material took an upward leap, and when it came to opening bids it was found that the contractors had made the building as planned impossible. Then, of course, it was determined to keep within the appropriation—until the political leaders began to circulate among the people and to find that they wanted the building as planned and were willing to pledge their nominees to the Legislature to make good if the appropriation fell short.

Accordingly, Superintendent Babbitt is to be asked to go ahead on the schoolhouse according to the original plans, the leading citizens and political leaders agreeing to see that the Legislature comes to his aid or to the aid of the school department in finishing it up, should it be found that the money runs out. Whether Superintendent Babbitt will accept these assurances remains to be seen. He is known to want the Kalihiwaena school, and to believe in building for the future in his department. So the people down Kalihi way hope that he will fall in with their views.

SCOTS HAVE A GOOD TIME

The Scottish Thistle Club held one of their enjoyable smoking concerts in the Scottish Thistle Club hall last night.

The crowded hall testified to the general appreciation of the event. Many of the best known Scottish entertainers in town assisted with selections including: R. Anderson, J. L. Cockburn, H. M. Ayres, Mr. Fenwick and others. At a late hour the concert adjourned to Burns' day, next year.

Why Should You Insure Your Life

BECAUSE it is the OLDEST AMERICAN LIFE INSURANCE COMPANY, CHARTERED 1835.

This Company is governed by the famous MASSACHUSETTS NON-FORFEITURE LAW. These laws have been in effect for MORE THAN FORTY YEARS. NO MASSACHUSETTS LIFE INSURANCE COMPANY HAS EVER FAILED, REINSURED, OR AMALGAMATED.

It is a PURELY MUTUAL old-line Company. There are NO STOCKHOLDERS to absorb any share of the surplus. The policy is NON-FORFEITABLE after three years; ITS RATES ARE VERY LOW.

DISTRIBUTIONS OF SURPLUS (DIVIDENDS) are made annually and may be used to REDUCE PREMIUM PAYMENTS, or to purchase paid-up additions to the insurance, as you may prefer.

MASSACHUSETTS is the only State that exercises any directive law over the distribution of surplus to policy-holders.

The Policies, having DEFINITE CASH VALUES ENDORSED on them, are MORE VALUABLE, as collateral security, than any other kind issued, as you can get your cash any year after the third you cease to need the protection.

A collateral POLICY LOAN of 90 per cent. of the cash surrender value can be secured at 5 per cent. interest.

Every paid-up policy CONTINUES TO PARTICIPATE in the distributions of surplus, yearly.

It is a policy which PROVIDES for ALL CONTINGENCIES of the future; that is so plain and explicit that any business man can understand its provisions at a glance. There is no FINE PRINT anywhere in a New England Mutual policy.

If you would be more fully informed regarding the latest forms of Life Insurance, send us your name and age and we will send you specimen policy and literature.
